
Shanghai Ding Fan Machinery Technology Co., Ltd.

Price Quotation Sheet

Automatic High-speed Double Twist Bunching Machine

Product Series No. by Manufacturer: DF-GJ630A

UNIT PRICE : FOB Shanghai USD 16, 700 USD

1. The above price is based on FOB Shanghai in US Dollars , and valid until **Dec 31st, 2014**
2. Payment Term: **T/T Payment :**
 - (1) 30% invoice value in advance payment when signing the contract.
 - (2) 70% invoice value payment after before delivery .
3. Free after-sales service guarantee for one year; And ensure a permanent paid after-sales service and spare parts supply.
4. Packaging: Standard export seaworthy packing.
5. The company offers free installation and debugging, technical training and the whole factory plan ; However the transportation cost from China to foreign country, accommodation costs for installation or technical training is paid by the buyer.
6. The company can provide assistance or design by customers' special specification requirements.
7. This price list only for quotation purpose. When the order is confirmed, only the formally signed sales contract by both parties shall be prevailed.

Machine Description

Specification	DF-GJ630
Stranded limits	7 up copper wire or 5# cable stranded
Maximum rotating speed	1600rpm
Diameter of single core	φ 0.14-0.68mm
Cross section area	0.22-6mm ²
Standard lay length	11.0~101.94mm
Direction of strand	optional for right or left
Spool	Φ 500- φ 630mm
Spool Loading and unloading type	manual pump hydraulic
Tension control	Mechanical friction or magnetic powder clutch tension plc automatic tracking.
Type of traverse	Rolling ring traverse, winding pitch and breadth are adjustable.
Main motor	11KW motor +frequency converter
Brake	electromagnetic brake, automatic stop when wire internal and external breakage
Dimension	L2900×W1500×H1650mm
Weight	3500Kg
Coating	No.2 apple green or by client's request
